BRIEF HISTORY OF THE BOSTON LATIN SCHOOL

The oldest public school in America, with a continuous existence, is the Boston Latin School. The School was founded April 23, 1635,* by the Town of Boston, antedating Harvard College by more than a year, and in April, 1935, celebrated its tercentenary with appropriate exercises.

The curriculum of the School is centered on the Humanities, for this School believes with the ancient Greeks that the only good things are the goods of the soul. Edmund Burke referred to America as exemplifying "the dissidence of dissent." From its beginning the Boston Latin School has taught its scholars dissent with RESPONSIBILITY and has persistently encouraged it.

The establishment was due in great measure to the influence of the Reverend John Cotton, who sought to establish in the new world a school like the Free Grammar School of Boston, England, in which Latin and Greek were taught.

The first school was in the home of the Master, Philemon Pormort.

In August, 1636, Daniel Maude** was chosen to assist him. When, in 1638, Pormort was obliged to leave Boston because of his adherence to the liberal doctrines of Anne Hutchinson, Maude became Master. He conducted the school in his own home till about 1643.

* "On the 13th of the second month, 1635, . . . Att a Generall meeting upon publique notice . . . it was . . . generally agreed upon that our brother Philemon Pormort shall be intreated to become scholemaster for the teaching and nourtering of children with us." — Town Records.

** A tablet has been erected by the City of Boston marking the site of Maude's home in Pemberton Square.

From the first years the town assigned the rents of Deer, Long and Spectacle Islands to the support of the school; in addition it was voted, in August, 1645, "to allow forever fifty pounds to the Master, and an house, and thirty pounds to an usher."

Of Maude's successor, John Woodbridge, little is known, except that he is supposed to have been the first minister at Andover and that he remained in office for approximately one year.

In 1650, Robert Woodmansey became the schoolmaster with a salary of "fifty pounds a year." He was followed by the famous colonial poet and physician, Benjamin Tompson, in 1667.

On December 29, 1670, the celebrated Ezekiel Cheever was invited to become Head Master, and Tompson was asked to remain as his Assistant. Cheever accepted, but Tompson left to take Cheever's former position in Charlestown. Cheever was fifty-six years old when he accepted the position. He died while in office, on August 21, 1708. Cotton Mather, the renowned divine, preached the funeral oration, in which he said, "We generally concur in acknowledging that New England has never known a better teacher." Cheever's reputation was great throughout the colonies, for he had written the famous "Accidence," which was the accepted Latin Grammar.

Nathaniel Williams, the first pupil to become Head Master, succeeded Cheever in 1708. In 1709, the master's salary was raised to one hundred pounds a year and the usher was still supplied at the town's expense.

In 1734, Williams resigned and John Lovell, his Assistant, was appointed to the vacancy, to become "the pride of Boston's parents and the terror of its youth."

In 1760, James Lovell, the Head Master's son, was appointed usher. He was an ardent patriot, whereas his father was a strong loyalist. They taught from desks at opposite ends of the school-room; and, voicing opposite political convictions, they typified many a Boston family in those trying times.

In the winter of 1774-75 the boys of the Latin School were accustomed to bring their sleds and, as soon as school was done, to coast down Beacon Street, across Tremont and down School Street. General Haldimand,* commanding the British troops under General Gage, lived on School Street, and his servant cut up the coast and put ashes on it. "The lads made a muster" — probably of the first class — "and chose a committee to wait upon the General, who admitted them, and heard their complaint, which was couched in very genteel terms, complaining that their fathers before 'em had improved it as a coast from time immemorial," etc. He ordered his servant to repair the damage, saying that he had trouble enough with Boston men, and wouldn't have any with Boston boys. He "acquainted the Governor with the affair, who observed that it was impossible to beat the notion of Liberty out of the people, as it was rooted in 'em FROM THEIR CHILDHOOD."**

On the morning of April 19, 1775, occurred one of the most dramatic episodes in the history of the School, when John Lovell angrily announced, "War's begun and school's done; *deponite libros.*" When the British evacuated Boston, in March,

*A tablet was placed on the site of General Haldimand's house in July, 1907.

**Letter of John Andrews to William Barrell, January 29, 1775.

1776, both the Lovells sailed with Lord Howe to Halifax, N. S.; the father as Howe's guest, the son as his prisoner. Shortly afterwards James was exchanged and later became a delegate to the Continental Congress. John Lovell died at Halifax, in 1778.

For admission to the School, during Lovell's regime, it was necessary to read a few verses from the Bible. Each of the six or seven classes of the School sat at different benches. The subjects studied were Latin and Greek and "the elementary subjects." The morning session of the School started at seven o'clock in summer and eight in winter, and ended at eleven. School resumed at one o'clock in the afternoon and ran until five. After either the eleven o'clock hour or the five o'clock hour, or after both, the pupils attended a writing school near by.

On Thursdays the School was dismissed at ten o'clock, in order that the pupils might have the opportunity of attending the "Thursday Lecture" — another heritage from Boston, England.

School was resumed under Samuel Hunt, who ruled — with some difficulty — till 1805. He was succeeded by William Bigelow, who, after nine years of still rougher going, also resigned.

Benjamin Apthorp Gould, appointed Head Master in 1814 while still a senior at Harvard, restored order and scholarship to the School. Many features of the Latin School of to-day — amongst them the "misdemeanor mark" — had their beginnings under Gould. He began the practice of declamation, which continues to this day. He made the beginnings of a library. He issued regular reports of scholarship to the parents and placed squarely on the latter the responsibility for the pupils' conduct.

Gould resigned in 1828 to enter business, and was succeeded by his assistant, Frederic Percival Leverett, the author of the famous Leverett's Latin Lexicon. Leverett resigned in 1831 to become head of a private school.

Leverett's successor, Charles Knapp Dillaway, was in office until 1836, when ill health obliged him to resign.

Epes Sargent Dixwell, who succeeded Dillaway, had been a Master at the English High School. The School owes much to Dixwell, for during his term of fifteen years he founded The Boston Latin School Association and made the school library a reality. While Dixwell was Head Master, Edward Everett Hale became an usher (1839) and continued in the office for three years. Dixwell resigned in 1851. Francis Gardner, one of the most renowned men of Boston in the middle nineteenth century, was his successor. He edited the famous series of Latin School Text-books. A rugged, forthright character, he made both friends and enemies. During the last six years of his headmastership, an absurdly ambitious curriculum was imposed on the School, aiming at "general culture." He opposed this vigorously but unsuccessfully. An estimate of Gardner can be obtained from these words of Wendell Phillips, his classmate: "He was, from mere boyhood and life long, eminently a just man, only claiming fair play, and more than willing to allow it to others. I never knew the time, even in his boyhood, when he did not detest or despise a sham." He died in 1876, the first Head Master to die in office since Ezekiel Cheever. It was during his headmastership that Phillips Brooks served for a year as usher in the School.

Augustine Milton Gay was chosen his successor; but he lived only a few months after his appointment.

Dr. Moses Merrill was appointed Gay's successor and continued in the office until 1901. He died shortly after leaving office. His contribution to the School was the reorganization of the curriculum on a sane, modern basis. There have been few changes since that time. During his lifetime he was looked up to as a man of high character and strong moral influence.

Arthur Irving Fiske became Head Master in 1902. One of the ablest scholars in these parts, especially in Greek, he was loved and respected by his pupils. He ruled without friction. He was at all times courteous, the perfect type of the scholar and gentleman. He resigned in 1910 and died the same year.

Henry Pennypacker was selected as his successor. Mr. Pennypacker brought to the office of Head Master, not only the mind of the scholar, but the rugged personality of the athlete. By those who came in contact with Henry Pennypacker, he was recognized as a man's man. He resigned in 1920 to become Chairman of the Committee on Admissions at Harvard. His work there made him a figure of national importance, until his death early in 1934.

Patrick Thomas Campbell, '89, the first graduate of the Latin School to sit in the Head Master's chair since the death of Dr. Gardner, succeeded Mr. Pennypacker in 1920. His kind and firm rule won the respect and love of all the boys who came in contact with him. The enrollment doubled during his consulship. In spite of this rapid growth, the School for four years in

succession, 1925 to 1928, obtained the highest average in examinations for admission to College, thereby securing permanent possession of the trophy offered by the Harvard chapter of the Phi Beta Kappa Society. In 1929, Mr. Campbell was chosen Assistant Superintendent of Schools and, in 1931, was elected Superintendent of the Boston Public Schools, a position which he held until his death on February 12, 1937.

Joseph Lawrence Powers, '96, a Master in the School for twenty-three years was appointed Mr. Campbell's successor in 1929. Soft-spoken, unhurried, courteous but firm, Dr. Powers exerted an incalculable influence for nearly half a century. Through depression and war he sustained the School's historic pace. He was an energetic champion of the economic welfare of the Masters, and from his retirement in 1948 until his death December 1, 1955, he was devotedly interested in the prosperity of the school and the Alumni.

George Leonard McKim, '18 succeeded Dr. Powers in 1948. During Mr. McKim's tenure of office, the School received a great amount of fine, country-wide publicity. National magazines reported the methods and standards of the School in a very favorable light. That the commendations were justified, is best shown by the performance of the boys of the School in the National Honor Society Scholarship Examinations.

Mr. McKim, a veteran of two World Wars retired in 1954 after more than thirty years of service in the Boston Public Schools. He was succeeded by John Joseph Doyle, '12.

Mr. Doyle, Class of 1912, assumed the Headmastership of his alma mater in September 1954 and retired June 1964. Mr. Doyle served in the

Boston Public School system for over forty years.

Dr. Wilfred L. O'Leary, '25, veteran of World War II, Colonel-Air Force Reserve, Commander Flt. A. Selective Service Tng. Unit Boston, Mass., President of Massachusetts Schoolmasters' Club, for the past eleven years Secretary-Treasurer of the New England History Teachers' Association and now Vice-President, succeeded Mr. Doyle on September 1, 1964. Dr. O'leary served from 1957 to 1964 as a member of the Educational Policy Committee of the Massachusetts Association of Secondary School Principals; at present is a member of the Admissions Policy Committee.

A realignment of courses has been effected. There are now Advanced Placement Courses in all Class I subjects.

Of the fifty-six signers of the Declaration of Independence these had been pupils of this School:—

John Hancock, Massachusetts.

Samuel Adams, Massachusetts.

Benjamin Franklin, Pennsylvania.

Robert Treat Paine, Massachusetts.

William Hooper, North Carolina.

The Latin School boys who served in the Civil War are commemorated by Greenough's* statue in the lower corridor, representing Alma Mater crowning her heroes; those who died in the war are named on a shield which she is holding; those who returned are named on two marble tablets near by. A bronze tablet and portraits in the Hall and corridors still further honor some of these men.

Latin School's service in World War I is memorialized by a bronze tablet on either side of the

main corridor. The tablet on the right has inscribed upon it the name of those Latin School boys who died in service. The tablet on the left is in honor of the four hundred and eighty alumni and undergraduates who enlisted in the army or the navy.

Portraits of Lieutenants Warren Eastman Robinson, Junior Master in the Latin School, and of many Latin School boys, who served and died in World War I, are in the lower corridor.

During the far-flung campaigns of the second World War ninety-eight Latin School boys in the various branches of the United States armed service laid down their lives.

The portraits of the following Head Masters, the property of the Boston Latin School Association, are in the Assembly Hall of the School:—

John Lovell: a copy of one by Smibert (the original of which is now in Memorial Hall, Harvard University).

Benjamin A Gould: artist unknown.

Charles K. Dillaway: by J. H. Young.

Epes S. Dixwell: by Henry O. Walker.

Francis Gardner: by Wm. Morris Hunt.

Augustine M. Gay: enlarged photograph.

Moses Merrill: by Frank H. Tompkins.

Arthur I. Fiske: by Wilton Lockwood.

Henry Pennypacker: by W. W. Churchill.

Patrick T. Campbell: by H. E. Smith.

Joseph L. Powers: by C. B. Moulton.

Wilfred L. O'Leary: by Patricia Marshall Tate.

A portrait of Charles J. Capen, A.B. and A.M. Harvard, a graduate of the School in 1840, and a teacher here from 1852 to 1910, is in the Library.

Tablets in the lower corridor and the Assembly Hall commemorate the lives of Ezekiel Cheever and of Moses Merrill.

Among the many efficient Head Masters of the Latin School these are worthy of note as having had a remarkably long connection with the School:—

THE SCHOOL BUILDING

As mentioned above, the first schools were held in the homes of the Masters. About 1645 the first schoolhouse, as such, was erected on the north side of School Street,* on the rear of the site now occupied by King's Chapel. Very little is known about the building, but from colonial records it is believed to have been of two stories. The schoolmaster had his home in the same building until 1702, when a separate house was built for Head Master Cheever.

In 1704, the schoolhouse was rebuilt. It stood at about the present location of the statue of Benjamin Franklin.** This building was used until 1748 when, due to an addition to King's Chapel, it had to be removed. A new schoolhouse was built on the south side of School Street, about where the end of the Parker House now stands. This building was repaired in 1785, and during the repairs Head Master Hunt taught the School in Faneuil Hall.

In 1812, a new building of three stories was constructed on the site of its predecessor. Ralph

*Originally "the street going up to elder James Penn's"; later the street was "South-Latin-Grammar-School Street," shortened into "School Street."

**A tablet marking the site is located on the fence in front of City Hall.

Waldo Emerson, who was in the School at that time, tells us that during the rebuilding period school was held in a barn near Haymarket Square, and afterwards in Scollay's building on Pemberton Hill.

Due to the rapid expansion of the city it was necessary to tear down the schoolhouse in 1844 to make room for the Horticultural House. At this time the school left the street to which it had given the name of "School Street," its home for two hundred years. The new schoolhouse was erected on Bedford Street, now the extension of Harrison Avenue. The school occupied one-half of this building, and the English High School the other half. In 1880, the growing numbers necessitated a new building, and accordingly, in 1881, the School was removed to Warren Avenue. English High School was still a neighbor, occupying the Montgomery Street side of the double building. This combined building was spoken of as "the largest structure in America devoted to educational purposes, and the largest in the world used as a free school."

After World War I the school building was found to be too small to accommodate the growth of both schools. In 1920, a new building was started on Avenue Louis Pasteur, in the Fenway, and the Latin School entered it in the fall of 1922, leaving English High School in possession of the old building.

The new building, of modern fireproof construction, proved inadequate for the School the very first year, and six extra classrooms were added at once. Even this addition proved insufficient, and for seven years the lower classes had to be housed in several annexes. In 1932-1933 the building was extended to about double its original size, and in the fall of 1933 the entire School was organized under one roof.

AIM OF THE SCHOOL

The Latin School is open primarily to boys who intend to go to College and wish to be prepared in the Liberal Arts tradition.

ADMISSION TO THE SCHOOL

All admission to Boston Latin School is by examination. Registration and examination will take place early in the spring. All boys must take examinations in English and Arithmetic. Only residents of Boston are eligible for the examination. Admission is restricted by the space available and selection of prime students for admission to Class VI and Class IVB.

Boys are earnestly recommended to enter Class VI to take the full six year's course, for such boys are likely to be better prepared for College and life.

The "A" sections of the School are made up of boys who enter Class VI; the "B" sections are made up of boys who enter Class IVB. The two tracks meet in Class II.

BOSTON LATIN SCHOOL
COURSE OF STUDY
SIX YEAR COURSE

FIRST YEAR

CLASS VI

ENGLISH: *Five periods a week.*

Aim: Our introduction of Class VI boys to the wonderful and varied world of literature; to the habit of reading for pleasure; to the understanding of the sentence and the paragraph for the achievement of clear, concise expression.

1. Literature: the reading and study of prose literature, especially narratives; the reading and study of selected poems, with an introduction to basic poetic terms.

2. Outside reading: a report on an approved book once a month.

3. Written composition: frequent short compositions aimed at developing skill in writing clearly and concisely.

4. Oral composition: at least three talks a year aimed at developing ease of expression.

5. Grammar: a thorough grounding in the elements of sentence structure and punctuation as an aid to reading comprehension and coherent expression.

6. Summer reading: the reading of six books from the appropriate Boston Latin School list designed to guide boys in exploring various areas of subject interest.

ENGLISH ENRICHMENT: *Three periods a week.* Along with the work above, Class VI will have an additional course of three periods of English a week. This course will include a study of the following:

1. Literature.

a. The Book of Psalms.

b. Classic mythology.

c. Breeder of Democracy.

(a history of Boston Latin School)

2. Precis writing.

3. Expository writing — short editorials, summaries, and reports.

Students will become acquainted with an important book of the Bible, will acquire a thorough grounding in the myths of the past, and will learn the meaning of thoughtful dissent. Further, they will come to know the heritage of the famous school they are attending. Precis work,

simple expository writing, and oral reports will aid students in achieving ease and fluency of expression, written and oral.

LATIN: *Five periods a week.*

Objectives:

1. Vocabulary including pronunciation, and simple word derivation.
2. Forms:
 - a. Regular declensions of nouns.
 - b. Regular declensions of adjectives.
 - c. Regular conjugations of verbs and the irregular verb SUM - Indicative active and passive.
3. Common usages of verbs, nouns, and adjectives.
4. Translation of simple sentences from Latin to English and vice versa.
5. Translation of simple connected passages from Latin to English.
6. Latin as the language of the class. Simple questions and answers in Latin.
7. Use of the Language Laboratory.

HISTORY-GEOGRAPHY — *One half year of each subject.*

HISTORY: *Five periods a week.*

History of the United States from 1865 to the present time with emphasis placed on the development of concepts, skills, ideals, attitudes, and appreciations through the study of American leadership. Oral and written assignments utilizing resource materials, community relationships, use of the library and collateral readings will develop critical analysis and ability to judge and discriminate historical problems.

GEOGRAPHY: *Five periods a week.*

A critical study of the countries of the Eastern Hemisphere stressing the interdependent social, economic, and political developments of the nations in order to achieve an understanding of the highly complex organized geopolitical relations in the world. Oral and written projects and continuing research units in area studies area developed to study human life and activity and man's natural environment.

MATHEMATICS: *Five periods a week.*

Aim: To help students discover the significance of our number system and to promote and develop skills in the applications of the basic laws of Arithmetic.

1. Review of the fundamentals operations, especially with common and decimal fractions. The commutative, associative and distributive properties. Percentage with applications in interest, discounts, profit and loss, commission etc.

2. Mensuration: practice with common units of measure, applications of linear, square and cubic measure. Study of common geometric figures: rectangle, square, triangle, trapezoid, circle, cylinder etc.

3. Use of the compass and protractor in mensuration and construction of geometric figures.

4. Scale drawing, ratio and proportion, statistical graphs.

5. Introduction to some modern topics: other number systems, modular arithmetic, the number line etc.

6. Introduction to some elementary algebra as time permits.

PHYSICAL EDUCATION: *Two periods a week.*

SECOND YEAR

CLASS V

ENGLISH: *Five periods a week.*

Aim: The continued exploration of the world of literature, with particular attention to the elements of the short story and the novel; the fostering of the habit of reading for pleasure; the continued attempt to teach clear, concise expression.

1. Literature: the reading and study of prose literature, with special attention to setting, plot, and characterization in short stories and novels; the reading and study of selected poems, with a review of basic poetic terms.

2. Outside reading: a report on an approved book once a month.

3. Written composition: frequent compositions in which careful attention is given to the development of the paragraph.

4. Oral composition: at least three talks a year aimed at developing ease of expression.

5. Grammar: a thorough grounding in the elements of sentence structure and punctuation as an aid to reading comprehension and coherent expression.

6. Summer Reading: the reading of six books from the appropriate Boston Latin School list designed to guide boys in exploring various areas of subject interest.

LATIN: *Five periods a week.*

Objectives:

1. Review of material covered in Class VI.
2. Vocabulary build-up and simple word derivation.
3. Forms:
 - a. Continued study of declensions of nouns, pronouns, and adjectives including irregulars.
 - b. Continued study of verbs, adding thereto the subjunctive active, passive and deponent.
 - c. Adverbs including comparison.
4. Additional grammar uses to prepare for translation of Caesar, Livy, Pliny, Ovid and other authors.
5. Translation of sentences from Latin to English and vice versa.
6. Translation of short stories as preliminary preparation for the translation to be encountered in 2nd year Latin.
7. Latin as the language of the class. Continued practice of questions and answers in Latin.
8. Use of the Language Laboratory.

History of the Ancient Civilizations from the beginnings of history including the Middle East and Mediterranean peoples, Ancient Greece and Rome through the feudal societies of the nationalistic states of Europe. Daily assignments will include readings from the myths, legends and biographies from the legacies of the Ancient World, as well as a comparative study of ancient and modern military campaigns. Enrichment programs in conjunction with the Museum of Fine Arts are incorporated in the year's work.

MATHEMATICS: *Five periods a week.*

Aim: To help the student acquire an adequate understanding and appreciation of the structure of elementary algebra and to develop the necessary manipulative skills for applications.

1. Algebra: Four periods a week. Elementary work in the real number system, properties of operations, the number line, equations, inequalities, products, factors, translation of problems in algebraic symbols, simplification and evaluation of easy expressions, a limited amount of work with fractions, graphs, irrational numbers and quadratic equations.

2. Arithmetic: One period a week. A review of the fundamental operations. Continuation and expansion of

topics studied in Class VI to include square roots, Pythagorean theorem, formulas, intuitive geometry, constructions, etc.

GENERAL SCIENCE: *Five periods a week.* Science is treated as a dynamic force in our everyday life with Energy as the unifying theme. Good habits of thinking and growth in the skills of problem solving are developed by collecting, organizing, interpreting and applying information in the areas of weather, climate, heat, sound, astronomy, food and electricity.

Outside reading and participation in science competitions such as the Future Scientists of America Awards and local Science Fairs are stressed.

PHYSICAL EDUCATION: *Two periods a week.*

THIRD YEAR CLASS IVA

ENGLISH: *Five periods a week.*

Aim: An introduction into the study of literature of an analysis of human behavior and motivation; the nurturing of the habit of reading for pleasure; the continuing attempt to teach clear, concise expression.

1. Literature: class reading, study, and discussion of short stories, novels, essays, poems, and plays, with special attention to human behavior and motivation.

2. Vocabulary: the study of words — their meanings, derivations, and connotations.

3. Outside reading: a report on an approved book once a month.

4. Written composition: frequent compositions of more than one paragraph, with topics based on class reading, personal observation, and experience.

5. Oral composition: at least three talks a year aimed at developing ease of expression.

6. Grammar: a review of the elements of sentence structure and punctuation, and an introduction to the study of rhetoric.

7. Summer reading: the reading of six books from the appropriate Boston Latin School list designed to guide boys in exploring various areas of subject interest.

LATIN: *Five periods a week.*

Objectives:

1. Review of forms and grammar already studied with

stress on subjunctive, infinitive, participle, gerund and gerundive uses.

2. Study of additional forms and constructions for use in sentence and translation work.

3. Vocabulary build-up and word derivation.

4. Translation from Caesar's Gallic Wars, Pliny, Livy, Seneca, Phaedrus and Ovid to provide for a great variety and a balance of the poetic, the historical, and the dramatic.

5. English into Latin exercises based on the grammar to be found in the works of the authors studied.

6. Latin as the language of the class. Continued practice of questions and answers in English.

7. Use of Language Laboratory.

FRENCH: *Five periods a week.*

1. Pronunciation. Reading aloud. Dictation. Oral practice.

2. Grammar. Oral and written practice in the forms and employment of articles, nouns, pronouns, adjectives, regular verbs, the most frequently used of the irregular verbs, their principal indicative tenses and the imperatives, the most commonly used adverbs, prepositions and conjunctions. Drill in sentence structure and memorization of elements of daily speech from the very first day of instruction.

3. Translation of simple French text into idiomatic English, and *vice versa*. Sight reading. Vocabulary taught by word list and notebook method.

4. Development of language skills through listening, repeating, memorizing, answering questions, reading, writing, dictation exercises.

5. Language laboratory practice (one period a week).

Note: A special course for a select group of pupils who have had FLES instruction and were members of a special class in French in Classes VI and V. Direct Method. Emphasis on hearing and speaking. Accelerated reading schedule.

*GERMAN: *Five periods a week.*

1. Pronunciation. Reading aloud. Dictation. Oral practice. Laboratory work.

2. Grammar. Oral and written practice in the forms and uses of nouns, pronouns, adjectives, articles, regular verbs, and all the common irregular verbs, and in the construction of easy sentences.

*Pupils are allowed a choice between French and German.

3. Translation of simple German into idiomatic English and *vice versa*. Some sight work.

4. Memorizing and reciting a few German poems.

CIVIC EDUCATION: *Three periods a week.*

A study of democratic theories, of conflicting political philosophies, of constitutional questionings within our own nation, and the nature and function of a state. Topics for research and development will encompass the activities of the national government, the problems of metropolitan government, the growth of state governments and relationship of industry to government. Field trips to local political and industrial agencies and seats of governments as well as "living experiences" of local leaders are aimed to develop a civic-minded student.

MATHEMATICS: *Five periods a week.*

Aim: To broaden both the concepts and skills started in the previous year and to develop the deductive approach for the future work in algebra and geometry.

1. Algebra: Review and continuation of topics commenced in Class V; fundamental operations, properties of real numbers, formulas, inequalities, products, factors, fractions, linear and quadratic equations, irrational numbers, graphs, systems of linear equations, functions, etc.

2. Geometry: Introduction to deductive reasoning, simple algebraic proofs.

3. Trigonometry of the right triangle.

4. Provision is made for the presentation of modern concepts in algebra and advanced topics as time permits.

BIOLOGY: *Five periods a week.*

A study of the investigative processes and progress of scientific ideas in preparation for life in a scientifically based civilization and the forces shaping the lives of modern citizens.

Observation, experiment, hypothesis and verification by problem solving in a balanced consideration of micro-organisms, plants and animals. Extensive use of films, and individual laboratory work are stressed.

PHYSICAL EDUCATION: *Two periods a week.*

FOURTH YEAR**CLASS IIIA**

ENGLISH: *Five periods a week.*

Aim: An exploration of the motives and behavior of man as shown in the different literary forms; a survey of American literature with particular attention to a few selected works; an emphasis on reading for pleasure; a sustained attempt at teaching clear, concise expression.

1. Literature: class study and discussion of more demanding essays, short stories, novels, dramas, and poems; a guided survey of American literature.

2. Vocabulary: the study of words — their meanings, derivations, and connotations.

3. Outside reading: a report on an approved book once a month.

4. Written composition: the writing of themes of several paragraphs, many analytical or argumentative.

5. Oral composition: longer talks based on topics chosen mainly from American literature.

6. Grammar: a thorough review of basic grammar and a continuation of the study of rhetoric.

7. Summer reading: the reading of six books from the appropriate Boston Latin School list designed to guide boys in exploring various areas of subject interest.

GREEK: *Five periods a week.*

Objectives:

1. Vocabulary including pronunciation and word derivation.

2. Word formations and grammatical usages with simple exercises illustrating their use.

3. Oral and written translation of English into Attic Greek and vice versa.

4. Simple questions and answers in Greek.

*GERMAN: *Five periods a week.*

1. (a) Reading aloud, and translating into idiomatic English, German suited to the progress of the class. (b) Sight translation of German into English. (c) Simple exercises conducted in German, and on what has been translated at sight into English. (d) Committing to memory and reciting German poetry.

2. The review of forms and the study of irregular verbs and of constructions continued, with exercises thereon.

*Pupils continue the study of French or German as started in Class IV.

3. (a) Oral and written reproductions of stories or of other simple German heard or read by the pupils. (b) Oral and written translation of English into German.

LATIN: *Five periods a week.*

Objective:

1. Review and continued study of grammar.
2. Vocabulary build-up and word derivation.
3. English into Latin exercises and connected passages based on Cicero and other writers.
4. Latin into English from Cicero's Orations and Letters, Pliny, Ovid, and Catullus.
5. Emphasis of historical and mythological matter.
6. Latin as the language of the class. Continued practice of questions and answers in Latin.
7. Use of the Language Laboratory.

FRENCH: *Five periods a week.*

1. Pronunciation reviewed. Reading aloud. Beginning development of skill in conversation: (a) learning to formulate simple definitions in the foreign language; (b) learning easy explanations in French of grammar rules; (c) *acquiring* a store of common conversational formulas.

2. Grammar reviewed and continued to include an introduction to the subjunctive mode. Study in greater depth of the pronouns, personal, relative, interrogative, possessive, and so on. All the tenses of the verbs. About thirty or forty of the most common irregular verbs. Composition: brief themes on simple assigned topics at stated intervals.

3. Reading, with translation, of reading texts and selections on progressive scale of difficulty. Dictation based on the texts. Oral comprehension exercises. More extensive vocabulary study. Word and idiom lists, notebook method.

4. Language laboratory practice (one period a week).
5. Outline study of French history.

MODERN EUROPEAN HISTORY: *Five periods a week.*

A study of Europe since 1815 designed to examine the political, cultural, social and economic changes leading to World War I and the post war revolutionary developments that resulted in World War II together with the political and social complexities of the twentieth century. A wide variety of source material including documents and literature will be used to highlight this period.

MATHEMATICS: *Five periods a week.*

Aim: To enable the student to understand the structure of plane and solid geometry and to develop his ability to reason deductively.

1. Plane Geometry: A complete study of plane geometry. Provision is made to introduce some of the newer concepts and ideas within the traditional course.

2. Solid Geometry: Introduction of three dimensional concepts limited to the basic theorems.

3. Analytic Geometry: Brief study of coordinate geometry and its application in proving theorems by algebraic methods.

4. Review of the algebra of the third year as time permits.

ACCELERATED MATHEMATICS: *Five periods a week.*

Aim: To permit the most able and interested students to accelerate their development in mathematics in order to enable them to pursue advanced college level mathematics in the senior year.

1. Plane geometry and intermediate algebra complete.

2. Fundamentals of analytic and solid geometry.

3. Presentation of some modern concepts in algebra and geometry.

CHEMISTRY: *Five periods a week.*

Laboratory work included. Presented in the light of modern theory and topics of atomic structure, the periodic table, chemical bonding, structure of material and properties.

Habits of questioning and seeking understanding rather than blind acceptance of dogmatic assertions are stressed. Observations and measurements taken in the laboratory lead to the development of unifying principles. A maximum opportunity for discovery in the laboratory is stressed. Opportunities to compete in various talent research contests are encouraged. Boys who successfully complete Chemistry I and Class III are eligible for advanced courses in chemistry in Class I.

PHYSICAL EDUCATION: *Two periods a week.*

HEALTH EDUCATION: *Three periods a week.*

FIFTH YEAR

CLASS II

ENGLISH: *Five periods a week.*

Aim: An examination of the problems of mankind as found in literature, with particular attention to the success or failure of man in his struggle to solve his problems; a survey of English literature with emphasis upon a few selected works; an emphasis upon read-

ing for pleasure; the teaching of clear, concise expression.

1. Literature: a survey of English literature; a mature look at the various literary forms; an analysis and discussion of the universal problems occurring in the reading material.

2. Vocabulary: a continued study of words — their meanings and derivations.

3. Outside reading: a report on an approved book at least once a month.

4. Written composition: the frequent writing of compositions; the study of the research paper and the writing of such a paper on a topic related to American literature.

5. Oral composition: the presentation of the chief points of the research paper.

6. Summer reading: the reading of six books from the appropriate Boston Latin School list designed to guide boys in exploring various areas of subject interest.

Note: An honors class exists which covers not only the prescribed material for Class II but also material for further enrichment of the course. Entrance to this class is gained through outstanding achievement plus teacher recommendation.

LATIN: *Five periods a week.*

Objectives:

1. Vocabulary build-up and word derivation.

2. Grammar in prose and poetry.

3. Study of metre — ability to scan so as to read passages metrically.

4. Translation into English of four books of Virgil's Aeneid.

5. Some translation from English into Latin including both individual sentences and connected passages.

6. Emphasis on historical and mythological matter.

7. Latin as the language of the class. Questions, answers, and simple conversation in Latin.

8. Use of the Language Laboratory.

GREEK: *Five periods a week.*

Objectives:

1. Review of 1st year Greek.

2. Additional vocabulary and syntax to aid in the translation of the work to be covered.

3. Vocabulary build-up and word derivation.

4. Translation of English into Attic Greek.

5. Oral and written translation of selections from Xenophon's Anabasis into English.

6. Outside readings in English dealing with Greek History and Literature.

7. Simple questions and answers in Greek.

**GERMAN: Five periods a week.*

1. (a) Translating into idiomatic English German prose and poetry suited to the progress of the class, including two or more German classics. (b) Sight translation of German into English. (c) Reading aloud, without translating into English, German prose of ordinary difficulty. (d) Conversation in German.

2. Free composition in German, including compositions on subjects drawn from German books previously read.

FRENCH: Five periods a week.

1. Thorough grammar review. Intensive study of the subjunctive mode, of the pronoun systems, sentence structure and so on. Extensive vocabulary study: advanced word and idiom lists. Review of verbs: study of about eighty irregular verbs.

2. Constant drill in pronunciation through oral reading. Dictation and comprehension exercises. Classroom use of tape recorder and phonograph. Records and pre-recorded tapes. Use of the foreign language as much as possible in the classroom.

3. Oral and written translation of foreign language texts of a fair degree of difficulty. Sight translation. Written composition: themes in which the student attempts to criticize or evaluate the selections he has been reading.

4. Provision for extended reading, both in school and at home.

5. Outline study of French civilization and culture.

MATHEMATICS: Five periods a week.

Aim: To extend the algebraic background of the student and establish the groundwork for the more advanced work in trigonometry and mathematical analysis.

1. Intermediate algebra complete.

2. Review of plane geometry including — numerous original exercises and proofs.

3. Basic topics in trigonometry, analytic and solid geometry.

**Pupils continue the study of French or German as started in Class IV.*

***ACCELERATED MATHEMATICS:** *Five periods a week.*

Aim: To enable the most able students to complete the normal senior mathematics course during the junior year.

1. Plane trigonometry complete.
2. Advanced and selected topics in analytic, solid geometry and elementary analysis.
3. Introduction to calculus and selected topics such as mathematical induction, vectors, permutations and combinations, probability etc. as time permits.

PHYSICS: *Five periods a week.*

Laboratory work included. This course is presented not as a mere body but basically as a continuing process of inquiry by which men seek to understand the nature of the physical world through exploration in the laboratory, films and class discussion. Fundamental concepts of motion, time and space and how we measure them from the infinitesimally small, from micro seconds to billions of years. How instruments serve as an extension of the senses; from the simple familiar to the more subtle ideas of modern atomic physics.

Course divided into four parts:

1. Time and space and their measures.
2. Optics and waves.
3. Mechanics.
4. Electricity and atomic structure.

WORLD HISTORY: *Five periods a week.*

A comparative study of the five civilizations of the World beginning with the civilization of the Orient up through the emerging nations of Africa. This course is designed to assist the student to collect, evaluate, organize and use historical data effectively. Collateral readings, committee assignments, and research projects will enable the student to consider tradition, customs and institutions critically in a society of changing times.

LIBRARY RESEARCH: *Three periods a week.*

PHYSICAL EDUCATION: *Two periods a week.*

***Only for students who have completed the Accelerated Mathematics course of the Fourth Year.**

SIXTH YEAR**CLASS I**

ENGLISH: *Five periods a week.*

Aim: An examination of the matter of the "eternal verities"; an analysis of problems and solutions as they are depicted in the literature for Class I; an emphasis upon reading for pleasure; the teaching of clear, concise expression.

1. Literature: a mature consideration of the various literary forms; an analysis and discussion of the universal and eternal problems occurring in the reading material.

2. Vocabulary: a continued study of words — their meanings and derivations.

3. Outside reading: a report on an approved book at least once a month.

4. Written composition: the frequent writing of compositions; a review of the writing of the research paper and the writing of such a paper on a topic related to English literature.

5. Oral composition: a presentation of the chief points of the research paper.

Note: In Class I an Advanced Placement course exists, the aims of which are to foster in students the ability 1) to recognize and interpret general ideas and themes, 2) to appreciate the relationship between content and form through the study of selected literary works, and 3) to write clear, correct, forceful prose, primarily expository in nature. Entrance to this class is gained through outstanding achievement plus teacher recommendation.

LATIN: *Five periods a week.*

Objectives:

1. Vocabulary build-up and word derivation.

2. Grammatical terms, rhetorical figures, and terms of prosody.

3. Prosody and reading metrically passages from Virgil, Ovid, Horace and Catullus.

4. Translation

a. Review of portions of Virgil already studied and completion of the first six books of the Aeneid.

b. Selected passages from Ovid.

c. Selected Odes from Horace.

d. Selected poems from Catullus.

5. Emphasis on historical and mythological matter.

6. Latin as the language of the class. Questions, answers, and simple conversation in Latin.

7. Use of the Language Laboratory.
8. Declamations in Latin.

LATIN: Advanced Placement — open to certain seniors.
Five periods a week.

Objectives:

1. Development of a cultural awareness.
2. Development of a spirit of independent research.
3. Translation from Latin into English of the following:
 - a. Cicero — De Senectute and De Amicitia.
 - b. Livy — Ab Urbe Condita Books XXI and XXII.
 - c. A substantial amount of the lyric poetry of Catullus and Horace.
4. Scansion of the Alcaic, Sapphic, Iambic, Hendecasyllabic, and Elegaic Distich metres.
5. Frequent application of Latin as the language of the class.
6. Use of the Language Laboratory.
7. Declamation in Latin.

GREEK: *Five periods a week.*

Objectives:

1. Review of grammar.
2. Introduction to Homeric vocabulary and syntax.
3. Vocabulary build-up and word derivation.
4. Translation from Homer's Iliad and Odyssey.
5. Appreciation of the culture of the past and its influence on the present.
6. Outside readings in English dealing with Greek History and Literature.
7. Questions and answers and some conversation in Greek.

COMPREHENSIVE GREEK: *Five periods a week.*

Objectives:

1. The development of a knowledge and appreciation of Greek culture and its influence.
2. Vocabulary build-up and word derivation.
3. A study of forms and constructions for the purpose of developing quickly a reading knowledge of the language. Readings in Xenophon and Plato, and selected passages from Homer.

GERMAN: *Five periods a week.*

Course conducted primarily in German.

1. *Language* (a) Reading of literary and non-literary texts representative of modern German prose style. (b) Discussion of such texts in German. (c) Development of writing skills with emphasis on stylistics.

2. *Literature* (a) Selections from main figures and movements in German literature. (b) Lectures on the cultural and historical backgrounds. (c) Discussion and analysis of texts.

3. *Reports* Each student is expected to give at least one oral report each month on a topic or an article from current German magazines or newspapers. At the end of the year each student also writes a paper of approximately one thousand words on a literary, historical, or cultural topic.

Advanced Placement German. The Advanced Placement course in German offers students of exceptional ability and interest in German the opportunity to perfect their reading, writing and oral skills. Literary texts will be analyzed intensively, special grammatical topics will be probed, and extensive use of audio-lingual material will be provided. It is hoped that, from this preparation, the student will develop in himself a degree of perfection in German which will enable him to pursue courses of a more advanced caliber upon entering college.

FRENCH: *Five periods a week.*

The next stage in the language development, with enrichment in the direction of wider reading and more speaking practice.

1. General and functional grammar review.

2. Advanced vocabulary and idiom survey.

3. Translation of advanced French prose and poetry. Training in rapid comprehension of fairly difficult textual matter. Provision for extended reading. Learning to read for full comprehension and appreciation of literary values, and as a pre-requisite for discussion of general and topical questions.

Advanced Placement French: A special accelerated course in French literature and culture, surveying outstanding figures and features of the Middle Ages, the Renaissance, the Enlightenment, Modern Times and the present century. Notable authors of each of these periods. The reading of their most significant writings in whole or in part. Discussion and evaluation. Principles of criticism. Background: political, social, artistic, industrial, etc. One original theme a month, to be written in French.

AMERICAN HISTORY: *Five periods a week.*

History of the United States from the period of Exploration to the present time including a critical analysis of the U. S. Constitution and international relations in the twentieth century. Collateral readings include conflicting interpretations of great issues and primary and secondary materials as documents of historical evidence. Original research and study will be in the form of a term paper required of all Seniors in American History.

ADVANCED PLACEMENT EUROPEAN HISTORY: *Five periods a week.*

This course is designed to prepare the student to obtain advanced placement in European history in college. Subject matter will cover from the Middle Ages to the outbreak of World War II. Political, cultural, social and economic aspects of history will be stressed. Assigned readings will be diversified and all students will be required to write a term paper.

MATHEMATICS: *Five periods a week.*

Aim: To complete the mathematical education of the student not expected to continue mathematics in college and to prepare the groundwork for those who plan to take calculus or other advanced topics in college.

1. Plane trigonometry complete.
2. Selected topics in analytic geometry, solid geometry and elementary analysis.
3. Enrichment material and modern topics to include: matrix algebra, linear algebra, derivatives, maxima-minima, etc. as time permits.

*CALCULUS: *Five periods a week.*

Aim: To prepare for the Advanced Placement Program.

College level analytic geometry and calculus complete. This course includes all topics recommended by the Commission for the Advanced Placement Program in mathematics.

**ALTERNATE MATHEMATICS COURSE: *Five periods a week.*

Aim: To provide modern and advanced enrichment material, particularly for students who may prefer to postpone the calculus until their freshman year in college.

*Only for the most able students who have completed the Accelerated Mathematics course of the Fifth Year.

**Only for students who have completed the Accelerated Mathematics course of the Fifth Year.

1. The subject matter is collegiate grade and includes a wide range of topics in both traditional and modern mathematics.

2. Topics presented include: symbolic logic, groups and fields, Boolean algebra, limits, statistics and probability, matrix algebra and other advanced topics as time permits.

CHEMISTRY: *Five periods a week.*

Three distinct courses are offered in Chemistry:

1. First course is identical to Chemistry I in Class III in both content and philosophy. Elective for those who did not take Chemistry in Class III.

2. Second course. A second year of chemistry following the same investigative philosophy of Chemistry I. It may be elected by those boys who have successfully completed Chemistry I.

3. Third course. Advanced Placement in Chemistry. This course is designed for a relatively small number, capable of studying successfully chemistry at the Freshman level in college. Prerequisite: successful completion of Chemistry I in Class III.

PHYSICS: *Five periods a week.*

Three distinct courses are offered in Physics:

1. First course. An elective course including laboratory work. Same in content and philosophy as Physics I in Class II.

2. Second course. An elective course. Physics I of Class II continued. Concepts of Physics I are reviewed and in addition the following topics are covered:

a. Angular momentum and conservation.

b. Relativistic kinematics.

c. Speed, energy, and mass.

Prerequisite: Successful completion of Physics I in Class II.

3. Third course. Advanced Placement in Physics. *Seven periods a week.* An elective course including laboratory work. This course is designed for a relatively small number capable of studying physics at the Freshman level in college. Prerequisite: successful completion of Physics I in Class II.

LIBRARY RESEARCH: *Three periods a week.*

PHYSICAL EDUCATION: *Two periods a week.*

A study of democratic theories, of conflicting political philosophies, of constitutional questionings within our own nation, and the nature and function of a state. Topics for research and development will encompass the activities of the national government, the problems of metropolitan government, the growth of state governments and relationship of industry to government. Field trips to local, political and industrial agencies and seats of governments as well as "living experiences" of local leaders are aimed to develop a civic-minded student.

*Pupils are allowed a choice between French and German.

MATHEMATICS: *Five periods a week.*

Aim: To help the students acquire an adequate understanding and appreciation of the structure of elementary algebra and to develop the necessary manipulative skills for applications.

1. Algebra: Systematic study of the real number systems, fundamental operations and properties, formulas, factors, products, inequalities, fractions, linear and quadratic equations, irrational numbers, graphs, systems of linear equations etc.

2. Geometry: A brief introduction to deductive reasoning and very simple proofs.

3. Trigonometry of the right triangle.

4. Provision is made for the presentation of modern concepts in algebra as time permits.

BIOLOGY: *Five periods a week.*

A study of the investigative processes and progress of scientific ideas in preparation for life in a scientifically based civilization and the forces shaping the lives of modern citizens.

Observation, experiment, hypothesis and verification by problem solving in a balanced consideration of micro-organisms, plants and animals. Extensive use of films and individual laboratory work are stressed.

PHYSICAL EDUCATION: *Two periods a week.*

SECOND YEAR

CLASS IIIB

ENGLISH: *Five periods a week.*

Aim: An exploration of the motives and behavior of man as shown in the different literary forms; a survey of American literature with particular attention to a few selected works; an emphasis on reading for pleasure; a sustained attempt at teaching clear, concise expression.

2. Solid Geometry: Introduction of three dimensional concepts limited to the basic theorems.
3. Analytic Geometry: Brief study of coordinate geometry and application in proving theorems by algebraic methods.
4. Review of the algebra of the third year as time permits.

ACCELERATED MATHEMATICS: *Five periods a week.*

Aim: To permit the most able and interested students to accelerate their development in mathematics in order to enable them to pursue advanced college level mathematics in the senior year.

1. Plane geometry and intermediate algebra complete.
2. Fundamentals of analytic and solid geometry.
3. Presentation of some modern concepts in algebra and geometry.

CHEMISTRY: *Five periods a week.*

Laboratory work included. Presented in the light of modern theory and topics of atomic structure, the periodic table, chemical bonding, structure of material and properties.

Habits of questioning and seeking understanding rather than blind acceptance of dogmatic assertions are stressed. Observations and measurements taken in the laboratory lead to the development of unifying principles. A maximum opportunity for discovery in the laboratory is stressed. Opportunities to complete in various talent research contests are encouraged. Boys who successfully complete Chemistry I in Class III are eligible for advanced courses in chemistry in Class I.

PHYSICAL EDUCATION: *Two periods a week.*

HEALTH EDUCATION: *Two periods a week.*

THIRD AND FOURTH YEARS

In the Third and Fourth Years of the Four Year Course the studies and the instruction are identical with the studies and the instruction in the Fifth and Sixth Years of the Six Year Course, with the following exceptions: Latin of Class IB is identical with that of Class IIA; Latin of Class IIB is identical with that of Class IIIA.

DECLAMATION

Almost from the earliest days Declamation has been a feature of the Latin School. Each boy may compete with other boys five times a year, before three teachers, for the privilege of speaking in the Public Declamations, which occur five times a year and are open to parents and friends. From the best of those appearing three times in Public Declamation twelve or more are selected for the Annual Prize Declamation in June, on the day of the awarding of school prizes. A combination of the school marks with the marks of judges selected from distinguished graduates of the school determines the award of prizes.

PRIZES AND SCHOLARSHIPS

For the current year prizes, medals and scholarships are offered as follows:

I.

DIXWELL PRIZE.

FOR EXCELLENCE IN CLASSICS.

To the pupil in each home room whose record for the year is highest in *Latin, Greek, and Ancient History*.

These classical prizes are offered from a fund given by Epes Sargent Dixwell, a former Head Master.

II.

FRANCIS GARDNER PRIZES.*

1. FOR EXCELLENCE IN MODERN STUDIES.

To the pupil in each division who has the highest record in *Mathematics, Natural Science, French, German, Modern History and Geography, English Language, Literature and Composition, Reading and Spelling*.

Note.—No pupil may receive both the *Classical Prize* and the *Modern Studies Prize* the same year, and no pupil who is repeating the work of the year is eligible. Both prizes are awarded on the basis of averages through the report card issued in May.

2. FOR EXCELLENCE IN DECLAMATION.

Three prizes — first, second, and third — to the best three speakers, regardless of class; also three special prizes: one to the best speaker from the first and second classes, another to the best speaker from the third and fourth classes, and still another to the best speaker from the fifth and sixth classes. Those speakers who win regular prizes will not be candidates for special prizes.

CORNELIUS MARTIN SULLIVAN AWARD.

From a fund established by the Class of 1952 in memory of its classmate, Cornelius Martin Sullivan, a special award is made to the winner of the First Prize in Declamation.

Note.—Declamation prizes are awarded upon the basis of marks given at Public Declamations during the year, and of marks given by the judges at the Annual Prize Declamation. The marks of the year count as sixty per cent.

*From the Bryant-Gardner Fund, the bequest of John D. Bryant, Class of 1849.

3. FOR EXCELLENCE IN READING.

Three prizes — first, second and third — to the best three readers, regardless of class; also two special prizes: one to the best reader from the third and fourth classes, and another to the best reader from the fifth and sixth classes. Those readers who win regular prizes will not be candidates for special prizes.

Reading prizes are given upon the basis of marks of the judges at the Annual Prize Reading.

4. FOR EXCELLENCE IN DEBATING.

Two prizes are offered to the best two debaters, regardless of class; also a special prize to the best debater from the third and fourth classes. Those debaters who win regular prizes will not be candidates for the special prize.

5. FOR EXCELLENCE IN DRAMATICS.

Prizes are offered, regardless of class, for excellence in dramatics for performance and/or preparation and/or production of a significant activity.

III.

LAWRENCE PRIZES.

1. FOR GENERAL EXCELLENCE IN CONDUCT AND STUDIES.

To scholars who have received the maximum number of approbation cards with distinction in the year.

Note.—These cards are given each month to all those scholars who have not been absent or tardy except for religious observance, who have not failed in any subject, and who have received no marks for misdemeanors.

2. FOR EXEMPLARY CONDUCT AND FIDELITY.

To one pupil in each division, selected by their masters as conspicuous for faithful endeavor, regardless of mere rank in class.

Note.—No pupil may receive a prize in both III., 1, and III., 2, the same year. No pupil may receive a Fidelity Prize more than once during his school career.

3. FOR ORIGINAL WRITTEN EXERCISES.

- (a) For a poem dealing with one of the following subjects:

1. The World We Are Creating
2. A Tribute to Man

(b) For an essay on one of the following subjects:

1. The Humanities in a World of Science
2. Rebellion in Modern Youth
3. A Critical Look at Communications Media

Note.—These prizes are derived from gifts made by several Boston gentlemen in 1819, and by the late Abbott Lawrence in 1845.

No exercise shall be rewarded unless of sufficient merit to deserve a prize. No pupil may be a candidate for more than one prize in III., 3. In II., 2, 3, 4, 5 and III., 2, no pupil may be a candidate for a prize for which he has before competed successfully.

4. FOR TRANSLATIONS.

(a) LATIN.

A Translation into English verse of one of the odes of Horace.

(b) FRENCH.

A translation of selections from nineteenth century French poetry of the Romantic period, with opportunity for comment and critical analysis.

IV

GARDNER PRIZE FOR RESEARCH.

From a fund given by pupils in New York and Boston of the late Francis Gardner, a former Head Master of the School, two prizes will be given. These prizes are offered only to members of the Graduating Class. One prize is offered for an essay showing the greatest *ability* and *research* in Science. A pupil may be a candidate for both prizes; but in any case the dissertations are subject to the conditions in the note under III., 3.

Note.—A list of authorities consulted, with references to volume, chapter, and page, must accompany each essay.

1. LITERATURE.

XXXIII

THE CLASS OF 1907 SCHOLARSHIP

To commemorate its Fiftieth Annual Reunion and Dinner, and to pay everlasting tribute to the wonderful and noble influence the School has exerted on the whole course of their lives, the Class of 1907 presented to the Boston Latin School Association the sum of \$3,000, the interest on which will be paid annually to that scholar of the Graduating Class who excels in scholarship and leadership, and who may need the money to further his education. The candidate will be selected by the Head Master and his Prize Committee.

XXXIV

THE JOSEPH P. KENNEDY SCHOLARSHIPS.

On the occasion of the Fiftieth Anniversary of his graduation, Joseph P. Kennedy, of the Class of 1908, presented to the Latin School Association the sum of \$50,000, the interest on which will be paid annually to worthy scholars of the Graduating Class for further education. The candidates will be selected by the Head Master and the Prize Committee.

XXXV

THE PHILIP MARSON SCHOLARSHIP

From a fund given to the Boston Latin School Association by the friends and former pupils of Philip Marson, a Master in this School from 1926 to 1957, a scholarship is awarded each year to a scholar of the Graduating Class who shall have evidenced excellence in English. The award is to be made in accordance with the conditions designated by the donors.

XXXVI

THE PAUL A. DEVER PRIZE.

From funds given the Boston Latin School Association by the Honorable Martin Colten, a silver medal is offered in memory of Paul A. Dever '19—a Governor of our Commonwealth—to that scholar of the Graduating Class who shall have been adjudged outstanding in "interest in government".

XXXVII

THE LEE J. DUNN MEMORIAL SCHOLARSHIP.

Established in 1958 by the Boston Latin School Association in memory of Lee J. Dunn, Librarian of the School, and Executive Secretary of the Association, whose untiring efforts resulted in hundreds of boys of the Boston Latin School being admitted to our finest colleges and universities, in such sums to be determined by the Standing Committee, in each year, and to be awarded annually to the typical Latin School boys in need of funds to further their education.

XXXVIII

THE CHARLES S. FITZGERALD SCHOLARSHIP.

In honor of Charles S. FitzGerald, a Master and coach for over thirty-five years in our School, an annual scholarship was set up in December, 1959 by a group of his past "greats", and by others, who wished also to pay tribute to the outstanding influence he has exerted on their own lives and on the School.

The Scholarship will be awarded to a scholar of the Graduating Class who best fulfills what Charles FitzGerald always stood for: good scholarship, an active interest in athletics, and excellent character. The Head Master and his Prize Committee will determine the best qualified candidate.

XXXIX

THE ARCHER L. FAXON SCHOLARSHIP.

From funds given by Raymond H. Faxon of the Class of 1925 in memory of his father, Archer L. Faxon, teacher in the Mathematics Department of the Boston Latin School for thirty-three years, to be awarded annually to that graduating senior who has evidenced an aptitude in mathematics, athletics and leadership while at Boston Latin School. The qualifications of the boy shall not be related to need.

The recipient of this award shall be chosen annually by a committee of three as set forth in the grant.

XL

THE DAVIDSON PRIZE.

In honor of Earl Ellithorp Davidson, Class of 1896, a silver medal is offered to that scholar of the Graduating Class who is outstandingly cooperative.

XLI

THE CLARK PRIZE.

From funds given to the Boston Latin School Association by bequest of David Taggart Clark, a prize is offered annually for a Greek or Latin recitation of a scholar of the Graduating Class.

XLII

THE LEVINE PRIZE

To honor Max Levine, Head of the French Department and to commemorate the Fiftieth Anniversary of his graduation from the School, the Class of 1957 offers a bronze medal for excellence in French.

XLIII

THE HERMANSON SCHOLARSHIP

From a scholarship fund to be known as the "Margaret and Samuel Hermanson Fund," the income of which is to be given each year to a worthy senior of Boston Latin School who has been accepted for admission to any university or college.

XLIV

THE GEISINGER FAMILY SCHOLARSHIP

From a fund to be known as the "Geisinger Family Scholarship," a scholarship is to be given to a graduating senior who has been admitted to a college, preferably Harvard, and who is a son of a school Master, preferably a teacher at the Boston Latin School. In the event that in any year no senior meets these requirements, the scholarship is to be given to a senior who in the judgment of the then Head Master reasonably meets the conditions of this grant.

XLV

THE PETER H. KOZODOY SCHOLARSHIP.

A scholarship established by his family, friends, associates and former students in memory of Peter H. Kozodoy, Class of 1928, former Master, former Head of Department at this school and late Head Master of East Boston High School shall be awarded each year to that scholar of the Graduating Class of Boston Latin School, who, in the opinion of the Boston Latin School Prize Committee, and the Standing Committee of the Association shall have shown a balanced average of scholarship, service to the school, exemplary Latin School spirit, a sound character, and who shall be in need of funds to further his education.

XLVI

THE PAULINE ALEXANDER SCHOLARSHIP

From a fund given to the Boston Latin School Association by Lawrence G. Alexander, D.M.D., Class of 1936, in memory of his mother Pauline Alexander, a scholarship will be awarded to a scholar of the graduating class who has been accepted for admission to Harvard College, who is in financial need and who in the opinion of the Head Master and The Prize Committee best exemplifies the Latin School spirit by his character, deportment and intellectual interests.

In the event no Latin School boy fulfills these qualifications in any given year, the proceeds of the fund are to be given to Harvard College for award to a Harvard Freshman living in Massachusetts.

XLVII

SEARS-ROEBUCK SCHOLARSHIP.

From time to time, the Boston Latin School is awarded a scholarship from the Sears-Roebuck Foundation.

This scholarship totaling \$800 (\$350-Freshman, \$200-Sophomore, \$150-Junior, \$100-Senior) is awarded for (a) Outstanding leadership ability, (b) Character, (c) Scholarship, (d) Likelihood of success in college, (e) Financial need to further education.

XLVIII

BAUSCH & LOMB SCIENCE AWARD

The Bausch & Lomb Science Award is given for the best record in scientific subjects in the Graduating Class.

XLIX

MATHEMATICAL ASSOCIATION OF AMERICA PRIZE

A prize is offered from time to time by the Metropolitan New York Section of the Mathematical Association of America for excellence in secondary school mathematics.

L

THE RENSSELAER MEDAL AWARD

A medal is offered by the Alumni of Rensselaer Polytechnic Institute to that scholar of the Graduating Class who has demonstrated excellence in Mathematics and Science and general proficiency in all school subjects.

LI

GLOVER MEDAL.

The Class of 1941 offers, each year, in honor of its former teacher, Leon Otis Glover, on the occasion of his retirement, and in memory of his son, Eugene Chellis Glover, Class of 1920, a silver medal to that member of the School who shall be adjudged best in Ciceronian Latin.

LII

THE MICHELMAN PRIZE.

From funds given to the Latin School Association by Joseph Michelman in memory of his son, Edward Abraham Michelman, Class of 1925; the prize to be awarded to a scholar of Class II. who shall be adjudged by the Masters to have made the best record in the mathematics of that class.

LIII

THE WILLIAM KIMBALL NORTON PRIZE.

The Class of 1935 offers, each year, in honor of its former teacher, William Kimball Norton, on the occasion of his retirement, a gold medal to a member of Class III, for excellence in the mathematics of that class.

LIV

THE JOHN K. RICHARDSON PRIZE.

From a fund given to the Boston Latin School Association by a scholar of the Class of 1897 in grateful memory of his teacher whose name the prize bears, a bronze medal is offered each year to that boy of Class III, who shall show the best improvement in scholarship during the year.

LV

THE WARREN EASTMAN ROBINSON PRIZE.

From the income of a Liberty Bond of fifty dollars given to the Boston Latin School Association by a division of Class III., of the Class of 1921, a prize in honor of Lieut. Warren Eastman Robinson is offered annually to that boy in Class III who has been conspicuous during the year in promoting Latin School spirit, and who is personally faithful, honorable, and reliable.

LVI

THE CLASS OF 1885 PRIZE.

From a fund given to the Latin School Association by members of the Class of 1885, prizes are offered "to those boys who shall show the proper school spirit and the prospect of exerting a good influence among their school-mates, and who also show general excellence in their studies."

For the current year these prizes, six in number, will be awarded to the six scholars of Class IVB, who appear to have fulfilled most nearly the conditions imposed by the donors.

LVII

THE RABB FAMILY SCHOLARSHIP.

To be awarded to that senior who, during the years of his attendance in this school, has been an outstanding scholar, loyal to the traditions of the school and demonstrative of those virtues of truthfulness, fidelity, and integrity.

LVIII

THE STEPHEN D. L. WOO MEMORIAL SCHOLARSHIP

From the income of a fund established in 1964 by his family and friends, in memory of Stephen D. L. Woo, Class of 1958, a scholarship shall be awarded annually to a deserving member of the Graduating Class who is of outstanding scholarship and excellent character and who requires financial assistance to further his education. In the granting of this scholarship preference shall be given to students matriculating at the Massachusetts Institute of Technology; but, in the event that, in any year, no senior shall so matriculate the award shall be given, the conditions of this grant otherwise being met, to a senior matriculating at any other school of higher learning similarly majoring in the technical sciences.

LIX

THE A. M. SONNABEND SCHOLARSHIP.

To be awarded annually to that young man of the Senior Class who has been noted for his character, scholarship, and humanitarian principles.

LX

THE BURTON G. MALKIEL PRIZE.

This prize has been established by Burton G. Malkiel, class of 1949, in memory of his mother, Celia Malkiel, to be awarded to that scholar of the Senior Class who has demonstrated outstanding excellence in public speaking.

LXI

THE WILLIAM F. MORRISSEY SCHOLARSHIP.

To be awarded to that senior of the Boston Latin School who exemplifies the virtues of leadership, self-reliance, and self-discipline, who ranks in the middle group of his class and needs financial assistance, and who in the opinion of his Masters exerts a beneficent influence over his classmates.

LXII

THE ROGERS SCHOLARSHIP.

Established by Ralph B. Rogers, Class of 1926, in memory of his late father, Joseph L. Rogers, a scholarship is to be awarded annually to that scholar in the Graduating Class who possesses the following qualities: Excellence in Scholarship, Character and Debating.

SCHOOL CLUBS

Several clubs and extra-curricular activities are offered to Latin School pupils. A list of these organizations, with the name of each faculty director, the time and place of meeting, and the purpose of the club, follows:

ACCELERATED MATH CLUB. (Mr. Deveney)

Alternate Wednesdays in Room 329 or 206.

To afford opportunity for discussion of mathematical topics, including those not ordinarily studied in the secondary school classroom.

CHESS CLUB. (Mr. Flynn)

Every Friday in the lunchroom (except when team is playing a rival school).

To foster the playing of chess and to develop teams creditably representing the school.

DEBATING SOCIETY. (Mr. Lindahl)

Monthly, at times to be announced, in Room 206.

To develop ease and skill in public speaking; to give practice in preparing for and taking part in panel forum discussions and debates. Open to all classes.

DRAMATIC SOCIETY. (Mr. C. Jameson)

The Boston Latin School Dramatic Society presents at least one major production annually, affording students the opportunity to recreate dramatic masterpieces of the classic, if not classical, repertoire, to provide an introduction to living theatre for many, to cultivate and/or refine a taste for the fine arts, and to work creatively in the technical phases of all auditorium activities as well as of a play.

FRENCH CLUB. (Mr. DioDato)

Alternate Wednesdays in Room 234.

To encourage hearing and speaking the foreign language and to promote discussion of topics related to the history, politics and culture of the French nation.

GERMAN CLUB. (Mr. Halloran)

Every Wednesday in Room 203.

To promote cultural interest in the art, music, literature and science of Germany. Lectures on German culture by members and by invited guests from nearby colleges.

GLEE CLUB. (Mr. Famiglietti)

Every Tuesday and Thursday in the Assembly Hall.

To provide choral instruction for pupils and to furnish musical entertainment for school assemblies.

HIGHWAY SAFETY CLUB. (Mr. Spracklin)

Monthly meeting on the third Thursday in 218.

To further the crusade for greater safety on the highways through discussions, lectures, demonstrations, and instructions from approved safety manuals.

KEY CLUB. (Mr. Waldron)

Tuesdays during L2 & L3 in Room 206, sponsored by the Kiwanis Club of Boston.

To provide service to the school and to the community in the tradition of Kiwanis International. Open to boys of Classes I, II and III.

LIBER ACTORUM. (Mr. Gearin, Mr. L. Casey, and
Mr. P. Jameson)

The Yearbook staff meets in Room 214 from September until printing deadline in April.

Editorial positions, open principally to members of Class I, are assigned on the basis of competition. A limited number of underclassmen are invited to work as writers, artists, and photographers upon evidence of ability and willingness to do required work.

MODEL RAILROAD CLUB. (Mr. Cameron)

Alternate Thursdays in 231.

To afford boys interested in model railroading (H O and S guage) an opportunity to share in the building and operating of a layout.

MUSIC APPRECIATION CLUB. (Mr. Roche)

Once a month at home of Sponsor and once a month in 211.

To develop a finer sensitivity to good music through recordings and musical talks; to keep members informed on current musical events.

NATIONAL HONOR SOCIETY. (Mr. Johnson)

Monthly meeting on the first Tuesday in Room 206.

To create an enthusiasm for scholarship, to stimulate a desire to render service, to promote worthy leadership, and to encourage the development of character. Membership in the Society shall be based upon scholarship, service and leadership — and is open to members of the Senior Class.

PHILOSOPHY CLUB. (Mr. Donovan)

Alternate Thursdays in 201.

To provide boys interested in philosophical ideas the opportunity to express themselves in certain subject areas of philosophy and discuss among themselves the application of these ideas to modern society and the individual.

PHOTOGRAPHY CLUB. (Mr. Driscoll)

Every third Monday in 102.

To foster interest in photography among the students and to increase their proficiency in the use of photographic equipment.

PROFESSIONAL CLUB. (Mr. Conley)

Alternate Wednesdays in Room 212.

To develop a sense of professionalism in those students who expect to enter the professions. The programs of the club will be oriented toward a fuller understanding of the duties, responsibilities and privileges of the various professions.

RADIO CLUB. (Mr. Higgins).

First Tuesday of the month in Room 317.

To learn by demonstration, discussion, and individual projects the principles of modern radio.

RADIO SHACK. (Mr. Higgins).

Every day in Room 312.

To teach, by actual experience, the operating procedures of two-way radio.

LATIN SCHOOL REGISTER. (Mr. Roche, Mr. P. Jameson, and Mr. Ahern)

Staff meetings held before and after publication of each issue in Room 204.

To give opportunity to boys with literary or artistic ability to have their compositions printed. Any student of the school is eligible to contribute.

LATIN SCHOOL STAGE CREW. (Mr. L. Casey)

Monthly meetings in the Assembly Hall.

The organization is a school-service group. Its members are responsible for the staging of all assemblies, plays, shows, and graduations — and for the care and management of all auditorium facilities.

SCIENCE CLUB. (Mr. Jacob)

Alternate Thursdays in Room 212.

To obtain through discussion, demonstration, and individual experiments knowledge of present day development and application of scientific principles.

SOCIAL SCIENCE CLUB. (Mr. Leary)

Alternate Wednesdays in Room 206.

Classes I through IV.

To promote an understanding of the role of man in the modern world. Special emphasis is given to politics, economics, and current events. Participation in the programs of the World Affairs Council is stressed to develop an understanding of other nations and international affairs.

STAMP CLUB. (Mr. Pheeny)

Alternate Thursdays in Room 133.

To assist pupils whose hobby is stamp collecting to know more about new stamp issues and the arrangement of stamps for exhibition. There is opportunity for exchange among the members.

VICTORY CLUB. (Mr. Desmond)

Every Monday in Room 135.

To build school spirit through the backing of school athletic teams by means of publicity, ticket-sales, rallies, and organized vocal support at games.
